Company Profile

Biocon Biologics is a unique, fully integrated, global biosimilars company with world-class 'lab to market' capabilities across development, manufacturing, and marketing. It is present in over 120 countries, including over 80 Emerging Market countries, where it is providing sustainable solutions for a healthier world through its cost-effective, high-quality biosimilars.

In the Latin America (LATAM) region, Biocon Biologics is making a significant impact on patients' lives by expanding access to lifesaving treatments and life-improving therapies to treat diseases like diabetes, cancer, and autoimmune conditions through its 8 commercialized biosimilars.

Biocon Biologics has developed a differentiated portfolio of biosimilars spanning insulins, monoclonal antibodies and conjugated recombinant proteins by leveraging its deep experience in biotechnology. It addresses the needs of patients in the LATAM region through its state-of-the-art manufacturing

infrastructure, which includes facilities for producing monoclonal antibodies in Bengaluru, India, and insulins in Johor, Malaysia.

In Mexico, we work with our local partners, Laboratorios PISA and Synthon Mexico. Biocon Biologics is focused on broadening access to biosimilars for treating cancer, diabetes and autoimmune disease through three of its products for the benefit of patients and improving healthcare outcomes in Mexico.

Headquartered in Bengaluru, India, Biocon Biologics has a longstanding presence in the biosimilars industry, having invested over \$1 billion in R&D and global-scale manufacturing over the past two decades. The integration of the global biosimilars business acquired from its long-term partner Viatris has further strengthened Biocon Biologics' commercial presence in Mexico. As a trusted and reliable company, Biocon Biologics is poised to grow and consolidate its leadership in biosimilars in Mexico, making a meaningful impact on patients' lives.
