^Related to Quality

26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Product quality	Risk	All pharmaceutical companies are constantly being evaluated on possible recalls, product safety and as per the changing regulatory landscape. Also, the consumers' expectations are constantly changing and with so many alternatives available, it is crucial to align with their expectations. Any issue relating to product quality may result in bans by regulatory authorities, penalties, etc. and thus would incur a direct financial impact and can lead to reputational loss. resulting in significant financial ramifications and reputational damage.	We have implemented a system to ensure the quality of products and continuous compliance with regulatory requirements. Additionally, through the pharmacovigilance process, Biocon tracks responses to actively address product-related risks and continuously improve the products. A dedicated pharmacovigilance team tracks and reports complaints received via a purpose-built web portal. We also have a toll-free number, publicly available on the web portal for patients or other stakeholders to report complaints. All reports are proactively investigated to ensure that timely action is taken where necessary. Further, all employees undergo mandatory pharmacovigilance-training. Also, periodic GxP (good practice) training is conducted that helps ensure GxP compliance and leads to improvement in Quality.	Negative: In the case of poor product quality, Biocon Biologics can face reputational as well as operational damage. This may also lead to a decrease in customer satisfaction and trust
2	Research & Development	Opportunity	R&D investment has a positive impact on green innovation and ESG performance of an enterprise. Therefore, strategically Investing in R&D and disclosing publicly on its investments allows internal and external stakeholders to understand the approach and scale taken by an organization.	The key area of focus is 'Green Chemistry' and we have implemented several initiatives for the same. These include transitioning from solvent-based reactions to water-based reactions, using harmless, greener solvents instead of hazardous solvents, enhancing our solvent recovery capabilities and overall, improving our processes to maximize the incorporation of all materials used. We have also conducted a Life Cycle Assessments (LCA) for a few of our products to identify and further reduce the use of hazardous substances which potentially results in a negative environmental impact.	Positive: Cutting edge technological innovations can place The company at the forefront of industry-leading discoveries and open new avenues for business growth. Negative: Disruption across Biocon Biologics' value chain can adversely impact the operations, thus hampering the supply of products and increasing cost
3	Access & affordability	Opportunity	Responsible pricing for innovative and generic medicines that take into consideration affordable access, positive cost-benefit ratio, and overall healthcare costs impact The company's reach and favour amongst patients, as compared to its competitors.	At Biocon Biologics, we aim to achieve health equity and believe that everyone, across the globe, has the right to access affordable and quality medicines. Through our generics, biosimilars and novel biologics businesses, we consistently work towards enhancing our value proposition and deliver best-in-class solutions to our patients.	Positive: Enabling access to affordable drugs and other services can support the reach and growth of Biocon Biologics, providing a competitive edge.
4	Environmental performance	Risk	Biocon Biologics' commitment towards protecting the natural environment and conserving resources have been embedded in our value system. Upholding these principles and complying with applicable regulatory requirements can affect the overall performance and enhance Biocon Biologics' image with the stakeholders.	To limit the environmental impact of the operations, Biocon Biologics continuously strives to reduce the carbon footprint, recycle resources, transition to renewable energy, adopt responsible sourcing practices, drive productivity across the value chain and adopt digital solutions that reduce inefficiencies. Our facilities are ISO 14001 certified (Environmental Management Systems) and required guidelines are followed during the operations.	Negative: In case of any non-compliance with environmental norms and regulations, Biocon Biologics can face reputational damage as well as well as adverse financial repercussions.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
5	Future ready workplace	Risk	As a responsible employer, it is our duty to create a safe and healthy workplace that is free of injuries, fatalities and illness. In addition to this, it is imperative to foster a conducive workplace that attracts and retains talent by enabling e m p o w e r m e n t, growth, flexibility, remuneration and purpose.	Biocon Biologics implements robust procedures and continuous process safety improvements at all the sites to show commitment towards a zero accident safety culture. Our facilities are ISO 45001 certified (Occupational Health and Safety Management Systems). There are employee training and processes and protocols for preventing, reporting and addressing behavior that is not in line with the Business Principles and standards, including sexual, discriminatory or other misconduct. To inculcate an empowering workplace, we have developed stringent processes which focus on enabling our employees to achieve their aspirations as well as their professional goals.	Negative: The absence of a safe and empowering workplace could result in adverse financial consequences such as fines and penalties. Additionally, it could lead to operational and reputational damage for the Company.
6	Digitization	Opportunity	Utilization of digital technology to improve efficiency in operations and quality management is a clear opportunity for the Company. This includes deploying digital initiative to fully integrate supply chains and improve operational processes, making them more adaptive and responsive.	Biocon Biologics is investing in building a robust digital architecture that will support data platform networks across all functions. Company is in the process of repurposing the facilities with digital technologies, automation, and the use of smart data management to drive operational excellence. ESG is at the core of Biocon Biologics' digital transformation where the aim is to enhance quality and compliance, augment productivity through enhanced operational excellence and enable data integrity through technology-led data transparency.	Positive: Digitization can lead to improved sales, productivity and employment which impact the Company's performance and impact as compared to its peers.
7	Supply chain sustainability	Risk	In the Pharmaceutical Industry, it is extremely imperative to ensure a stable supply chain to ensure business continuity. Initiatives must be undertaken to anticipate, prevent and mitigate any concerns that causes disruptions.	The integrated supply chain ensures uninterrupted medicine availability to the customers, patients, partners and healthcare systems globally. Biocon relies on cost-effective and sustainable logistics and supply chain rationalization to increase access, right from the stage of procurement of raw materials to the last-mile delivery of products to patients. Biocon Biologics enforces a mandatory minimum level of adherence towards environmental compliance for our critical vendors through periodic site audits. Additionally, a Supplier Code of Conduct to guide the value chain partners on applicable laws, regulations, policies and procedures, as well as the behavioral and ethical standards has been developed and communicated to all vendors (including service providers).	Negative: Disruption across Biocon Biologics' value chain can adversely impact the operations, thus hampering the supply of products and increasing costs.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
8	Community engagement	Opportunity	It is crucial that Biocon engages with the communities we operate in to increase trust and foster harmony.	The Biocon Foundation is the principal channel for the corporate philanthropy undertaken by the Company. The aim of this Foundation is to build resilient solutions that enable underserved communities to live better, every day. The core areas of intervention are: <ul style="list-style-type: none"> • Primary Healthcare • Environmental Sustainability • Rural Development • Educational certifications 	Positive: By empowering and uplifting our surrounding communities, we can mitigate future grievances or concerns, thus safeguarding the business from any adverse events.
9	Inclusion and diversity	Opportunity	This aspect addresses a Company's ability to ensure that its culture, hiring and promotion practices embrace representation from a diverse and inclusive workforce across all levels of the organization (board, senior, mid and junior levels).	Numerous steps have been undertaken to build a gender inclusive workplace, which includes an extended maternity leave, parttime opportunities for returnees, gender sensitization sessions and women's health initiatives. The Company also has several distinct developmental programs in place, focused on the Company's female employees, geared towards preparing them for managerial and leadership roles. The Company has an 'Equal Pay for Equal Work' practice in place, where employees are compensated based on their merit, irrespective of the gender they identify with.	Positive: A pool of diverse workforce from different genders, ages and ethnic diversity, will enable the Company to develop its services further and mitigate operational risks.
10	Governance	Risk	To ensure the smooth functioning of the Company, Biocon has implemented clear systems and defined roles and responsibilities of concerned personnel for managing topics related to ethics and integrity (e.g. anti-bribery and corruption, anti-money laundering, code of conduct, whistle blowing etc.)	The principles of integrity, transparency, accountability, and ethics resonate throughout the organization. Professional management teams and independent Boards for Biocon Limited, Biocon Biologics Limited, and Syngene International Limited have been built to allow better governance across the Biocon Group. By implementing global best practices in corporate governance and risk management, we ensure that the Group consistently preserves and enhances value.	Negative: Absence of adherence with the policies of the Company on business conduct and ethical governance can lead to reputational as well as operational damage.
11	Ethical sales and Marketing	Opportunity	Ethical sales and marketing practices position our Company as responsible and trustworthy, attracting customers and investors who value integrity. This fosters stronger customer relationships, leading to increased loyalty and repeat business, while also ensuring long-term sustainability by mitigating regulatory risks and fostering goodwill among stakeholders.	We prioritize transparency and integrity in its sales and marketing efforts, adhering to ethical standards and promoting responsible business practices. They regularly communicate their commitment to ethical conduct to stakeholders and invest in building strong customer relationships based on trust and transparency.	Our commitment to ethical sales and marketing practices may initially lead to higher upfront costs, but over time, it can result in increased customer loyalty, enhanced brand reputation, and reduced regulatory risks, ultimately contributing to long-term financial sustainability and growth.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
12	Climate Risk	Risk	Climate risk poses a threat to our Company due to potential disruptions in the supply chain, increased operating costs, and regulatory pressures stemming from climate change-related regulations, impacting both production and distribution processes. Additionally, extreme weather events and changing environmental conditions may affect the availability and quality of raw materials essential for Biocon Biologics' operations.	Biocon Biologics' is adopting a comprehensive approach to mitigate climate risks by investing in sustainable practices such as renewable energy sources, efficient water usage, and waste management. They are also incorporating climate risk considerations into their business strategy, supply chain management, and product development to enhance resilience and minimize environmental impact.	Climate risks can lead to increased operational costs due to the need for adaptation measures, such as investing in resilient infrastructure and implementing eco-friendly technologies. Additionally, regulatory compliance costs may rise, while potential disruptions to the supply chain could impact production schedules and revenue streams, affecting Biocon Biologics' financial performance and profitability.

Biocon Biologics has achieved re-certification with ISO 45001:2018 for its Occupational Safety and Health Management System from TUV Nord, meeting EHS Management System Standard requirements. Our focus on digital solutions this year has led to significant enhancements in safety assessment and reporting, positioning us at the forefront of Occupational Health and Safety (OHS) standards:

1. We've developed an AI-powered system for detecting and recognizing safety anomalies, providing valuable insights to enhance safety, operational efficiency, and compliance.
2. Our e-learning platform, hosted on SAP-SF LMS, offers a comprehensive library of modular training courses covering various occupational safety topics, fostering awareness and promoting best practices.
3. The Malaysia facility has successfully implemented a QR code and scanner-based reporting system, enabling efficient reporting of hazards across four main categories: chemical, biological, ergonomic, and physical.
4. We've implemented Indoor Air Quality (IAQ) testing using specialized equipment (EVM) and conducted Industrial Hygiene exposure assessments for specific products at Biocon Park (Bengaluru), ensuring effective risk management and control measures.

Additionally, we conduct regular training sessions and solvents on Environmental, Occupational Health, Safety, and Sustainability for our employees. Collaboration with the British Safety Council further underscores our commitment to adopting and implementing the highest OHS standards and practices.

PRINCIPLE 9: Businesses should engage with and provide value to their consumers in a responsible manner**Essential Indicators**

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

The Company has effective mechanisms in place and makes concerted efforts to address and resolve consumer feedback and complaints. A specialized pharmacovigilance team is dedicated to tracking and reporting complaints received through a custom web portal. Stakeholders have the option to directly submit their feedback and complaints via this portal, accessible at <https://pharmacovigilance.biocon.com/OnlineForm.aspx>

This portal serves as a platform for recording information related to product issues, adverse events, or side effects experienced by consumers. Users can provide detailed descriptions of the event, including any additional information regarding severity or causality, as well as the eventual outcome. Additionally, the Company offers a toll-free number, publicly accessible on the web portal, for patients and other stakeholders to report complaints <https://www.biocon.com/more/contact-us/>

All reports undergo proactive investigation to ensure timely and appropriate action is taken as necessary.

2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

Particulars	As a percentage of total turnover
Environmental and social parameters relevant to the product	All our products adhere to the innovator's guidelines for safe and responsible usage, as indicated on product labels and package inserts. These guidelines, which encompass necessary safety instructions, are based on the legal requirements and regulations of the countries where we operate.
Safe and responsible usage	
Recycling and /or safe disposal	

3. Number of consumer complaints in respect of the following:

Particulars	FY 2023-24		Remarks	FY 2022-23		Remarks
	Received during the year	Pending resolution at the end of the year		Received during the year	Pending resolution at the end of the year

4. Details of instances of product recalls on account of safety issues:

Particulars	Number	Reason for recall
Voluntary recalls	0	-
Forced recalls	0	-

5. Details of instances of product recalls on account of safety issues:

Yes

Yes. The Company has a dedicated privacy policy <https://www.bioconbiologics.com/privacy-policy-bbl/> in place for cybersecurity and risks related to data privacy

This policy outlines the types of personal information collected, its sources, and how it's utilized and safeguarded. Additionally, it emphasizes users' rights regarding the sharing of their personal data.

The Company's IT infrastructure and information security management system are certified to ISO 27001:2013 and undergo external third-party audits. Moreover, regular third-party vulnerability assessments, including simulated hacker attacks, are conducted.

Biocon Biologics also upholds a Human Rights policy accessible at <https://www.bioconbiologics.com/docs/BBL-Human-Rights-Policy.pdf> demonstrating its commitment to respecting individuals' privacy and the confidentiality of their personal data.

All employees receive annual awareness training on information security and cybersecurity, with special sessions held throughout the year on key focus areas. An established escalation process allows employees to report suspicious activities promptly. Information security and cybersecurity are also considered in employee performance evaluations.

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.

We take proactive steps in case any issue arises pertaining to any one of these categories. Corrective actions are also taken to prevent recurrences of similar instances.

7. Provide the following information relating to data breaches:

- Number of instances of data breaches: Zero
- Percentage of data breaches involving personally identifiable information of customers - Zero
- Impact, if any, of the data breaches - Zero

Emerging Risks:

The global pharmaceutical business is vulnerable to a wide range of emerging risks that have the potential to cause major disruptions to both our operations and our entire value chain. We have collaborated with our stakeholders to get a better understanding of these risks.

Malicious use of AI

While AI/Generative AI-based tools promise significant advancements across industries, they also pose security risks, such as the possibility of ransomware that can adapt quickly to security systems through polymorphism. Traditional security systems may fail to detect such advanced threats. Also, there is an increasing trend of AI tools being used to spread misinformation across industries.

Given the adoption of AI-based systems in various operations, protecting our digital infrastructure against these threats is crucial. The organization has invested in next-generation technologies to safeguard, detect, and respond to threats. Networks have been fortified with robust perimeter defences, including intrusion detection and protection features. Advanced anti-virus software using Machine Learning (ML) for behavioural analysis is deployed to identify and respond to previously unknown threats. Continuous monitoring is enhanced by applying AI and ML algorithms to identify new threats. Further, we have strict access control policies based on the "need to know" principle. All data, whether in transit or at rest, is encrypted according to its importance and risk level. A comprehensive Data Leak Prevention (DLP) system is in place to prevent data breaches.

To prevent misuse of AI, the organization prohibits the use and upload of data to Open AI-based tools and restricts users to enterprise-level systems like Copilot for Microsoft 365. This ensures productivity improvements while mitigating risks. For cases where we engage with third party research agencies to help us build models for clinical data analysis, we ensure their processes undergo thorough assessments for any vulnerability or misuse.

We also tap into the external expertise to proactively detect, analyze, and update our systems against unconventional threats and addressing any data leaks that may occur. We are active members of industry groups that share best practices in this area.

Extreme and Erratic Weather Events

Though extreme weather events have been a global phenomenon for some time, it is being considered as an 'emerging risk' due to the observed increase in the intensity, frequency, and unpredictability of such events. Recent examples relevant to our operations include the somewhat unprecedented levels of temperature in Bengaluru, India, one of our main manufacturing and office locations. Occurrence of extreme events could impact our day-to-day operations, especially in the absence of risk assessment and mitigation strategies. Initiatives such as adopting sustainability goals, roadmap for GHG reduction, water conservation, waste management through circular economy principles, increasing share of renewable power, and introduction of energy-efficient systems in core operations add to mitigation strategy against these events. We also see this as an opportunity for resource conservation and for harnessing efficiencies that are associated with energy efficiency pathways.

***Suppliers from the same or neighboring districts as the respective facilities of BL and BBL India are considered as local.

[^]The supplier count for FY22 has increased. This is due to the change in scope. Last year, for FY22 only direct procurement groups were considered. The present scope for FY22 and FY23 now includes both direct and indirect procurement groups for products and services and hence there is an increase in the count of suppliers.

Independent Assurance Statement

Introduction

Biocon Limited (“Company” with CIN number L24234KA1978PLC003417) engaged Emergent Ventures India Pvt. Ltd. (“EVI”) for carrying out an independent assurance of the non-financial disclosures, ESG data and BRSR (Core) indicators reported in the Biocon Integrated Report (“IR” or “Report”) for the reporting period from 1st April 2023 to 31st March 2024. The disclosures in this report have been prepared by the company based on the guiding principles and content elements of the International Integrated Reporting Council’s (IIRC) Framework, reference to the principles and requirements of the Global Reporting Initiative (GRI) Standards 2021, aligned with the United Nations Global Compact (UNGC) principles, United Nations Sustainable Development Goals (SDGs) and requirements of S&P Global Dow Jones Sustainability Indices (DJSI). The disclosures in this Report have been mapped based on the requirements of SEBI Circular no. SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122 dated July 12, 2023, prescribing format of the BRSR and the nine principles of the National Guidelines on Responsible Business Conduct, 2019 (‘NGRBC’) of the Ministry of Corporate Affairs, Government of India. The assurance has been conducted in accordance with the requirements of Assurance Standard AA1000AS v3.

Scope and level of assurance

EVI has been engaged to provide Limited Assurance (Moderate Level Type 2 as per AA1000AS Standard) for the non-financial disclosures, ESG data and BRSR (Core) indicators reported in the Report for the reporting period from 1st April 2023 to 31st March 2024. The operations covered for this assurance include Biocon Limited’s operations in India and Biocon Biologics Limited’s operations in India and Malaysia.

Activities undertaken

A number of activities have been undertaken for this assurance:

- a. Review of the Integrated Report, BRSR and ESG Data book to verify reported data under respective environment, social and governance category.
- b. Review the adherence to principles of Materiality, Inclusivity, Responsiveness and Impact as per AA1000AS.
- c. Conducting on-site audits for corporate office and manufacturing sites in Bengaluru on sample basis.
- d. Meeting with key officials to discuss and understand management approach towards sustainability.
- e. Meeting with the ESG Working committee members of Biocon Limited and Biocon Biologics Limited and key personnel responsible for data collation and compilation at site to discuss and assess the systems used for data compilation and reporting.
- f. Review and understand the appropriateness of various assumptions used for the estimation of a few data points by company.
- g. Assessment of site-specific data disclosures on ESG performance indicators on sample basis for its accuracy and reliability.

Limitations

Assurance relied solely on the documentation maintained and provided by the company. Assessment is based on the assumption that the data and information provided in the report are proper and without any discrepancy. Assurance is subject to no physical verification of the inventories e.g. of material consumed, waste generated, emissions and effluents.

The scope of assurance does not further cover:

- The statements made in the Report that describe company’s approach, strategy, aim, expectation, aspiration or beliefs or intentions.
- Data related to the Company’s financial performance disclosures.
- Activities and practices followed outside the defined assurance period stated hereinabove.
- The assurance does not extend to the activities and operations of the Company outside of the scope and geographical boundaries mentioned in the report as well as the operations undertaken by any other entity that may be associated with or have a business relationship with the “Company”.
- Compliance with any environmental, social, and legal issues related to the regulatory authority.
- Mapping of the Report with reporting frameworks other than those specifically mentioned in assurance scope. Any assessments or comparisons with frameworks beyond the specified ones are not considered in this engagement.

The reliability of assurance is subject to uncertainties that are inherent in the assurance process. Uncertainties stem from limitations in quantification models, assumptions, or data conversion factors used or may be present in the estimation of data used to arrive at results. The conclusions herein are also naturally subject to any inherent uncertainties involved in the assurance process. While reading the assurance statement, stakeholders shall recognize and accept the limitations and scope as mentioned above.

Independence

EVI is an independent professional services company that specializes in the areas of Sustainability, Climate Change and Environmental Management. EVI adheres to Code of Ethics as per AA1000AS to maintain high ethical standards in assurance activities. No member of

the assurance team has a business relationship with the Company, its Directors, Managers, or officials beyond that required of this assurance. The team has conducted the assurance independently and there has been no conflict of interest. No member of the verifier team is involved in the preparation of the Report. The assurance has been carried out by experts from climate change and sustainability areas who have an excellent understanding of methodology and procedures for the assurance of sustainability reports and data as per AA1000AS.

Company's responsibility

Biocon is responsible for preparing the Integrated Report, BRSR and ESG Databook in accordance with reporting Standards and for maintaining effective internal controls over the data and information disclosed. Biocon is completely responsible for the report contents, identification of material topics, and data reporting structure. The selection of reporting criteria, reporting period, reporting boundary, monitoring, data measurement, preparation, and presentation of information for the reports are the sole responsibility of the management of the Company. The intended user of this assurance statement is the Management of the company.

Verifier's responsibility

The assurance statement should not be taken as a basis for interpreting the Company's overall performance. EVI do not accept or assume any liability whatsoever to any person or organization with regards to use or reliance on the contents of this assessment.

Conclusion

Based on the Moderate Level Type 2 (Limited) Assurance procedures and activities conducted and data/evidence obtained, nothing has come to our attention that causes us to believe that the disclosures are not in conformance with the requirements of assurance standard AA1000AS v3 and BRSR core framework by SEBI.

Observations and Recommendations

- **Principle of Inclusivity:** Company has applied the principle of inclusivity in engaging with its stakeholders. Different departments engage regularly with their relevant stakeholders through multiple engagement channels.
- **Principle of Materiality:** Company has followed a structured process of materiality determination to report key material issues.
- **Principle of Responsiveness:** Company has applied the principle of responsiveness with respect to its stakeholders. Company has well defined system for responding to any concern raised by key stakeholders.
- **Principle of Impact:** Company has identified, measured and disclosed the impact related with some of the key environmental, social and governance topics.
- **Reliability and quality of specified information:** The majority of the data and information verified by assurance team (on sample basis) during the assessment is found to be fairly accurate. All data is reported transparently without material error.

Without affecting the overall conclusions on the Report, the following recommendations are made:

- Company is already conducting training and awareness sessions on sustainability for onsite personnel. Further, enhanced level of trainings on requirements of sustainability standards may be organized for data owners.
- Data reporting formats may be further streamlined to be able to track and report ESG performance with respect to each facility/ company.
- Company may adopt advanced data capturing and reporting software to minimize the possibility of human error in data entry, calculations and reporting.
